International Mercantile Marine was the fea-ture. There was considerable heard in the street, going of Thereign buying" and "sub-sidy bills," but the movement was generally recarded as purely speculative. The common moved up from 194, to 194, cleaning at 1445. The preferred moved up from 204 to 2045, broke is 25 and closed at 1645. Northern 36-cuntiles, after a sharp advance from 165 to 1875, broke is 1875. Interbeen Ragid Transit was highly struguler. It was marked up from 1895, to 205, broke to 198, recovered to 500 and broke again at the close to 1975. Copper stocks were very dull and variably chanced. Greene Consolidated declined from 205 to 205, Tennessee was a shade higher at 1845. Ameri-cian Can preferred reacted from 505, to 6275. Standard 631, on fairly heavy transactions, de-cinced from 635 to 632. SUGAR

STOCK MARKET WEAK AND SLUGGISH ALL DAY.

AT TIMES IT WAS ALMOST ENTIRELY IDLE.

But for Spasm of Liquidation at Close, Sales of Day Before Would Have Been Cut in Half.

New York, Jan. 31.- The most notable fact about trading in stocks to-day was the decided subsidence of activity. Even with yesterday's extreme, the total dealings for that day fell below last week's average, which was about 1,000,000 shares, and to-day that average would have been fully cut in half but for the spasm of liquidation at the close. The market became almost idle at times and the movement of prices was intensely sluggish un-

The tone, however, showed evident improvement over that of yesterday, and prices started upward briskly from the outset. This was due in large part to the less alarming view taken of the course of events in Russia. HOPEFUL ANALYSIS.

The idea that an immediate overturn of the existing Government was threatened was pretty definitely dismissed. There was some disposition to argue that Russia's internal troubles might have the effeet of hastening the conclusion of peace with Japan and the cutting off of the enormous expense of the war, with the possibility of a positive benefit resulting to the finances of the Empire.

But the foreign situation had little direct effect here, except in a negative way, when there was a cessation of the for-eign pressure to liquidate American seurities against threatened losses in other

directions.

Free from this influence, there was a normal tendency toward recovery. In a few individual stocks there was a resumption of attempts to lift prices, but the motives of the buying in these cases were rather vague and not disclosed to the general public. Their sympathetic effect on the general list was also very moderate.

NORTHERN SECURITIES. The renewed rise in Northern Securities on the curb revived all the long-standing rumors pointing to the widespread results Held by Investors.

Chicago and Alica be set if to be expected from the settlement growing out of the Northern Securities case. The supposed imminence of the announcement of the Southern Pacific's refunding be set in local securities was almost patiently in tractions yesterday. These issues were fairly well supported. United Bailways common was well taken at English and preferred was in good demand at \$66.25 and \$68.125. The 4-per-cent bonds at \$66.25 and \$66.125 and \$6 to be expected from the settlement grow-

all the day's advances, and there was a sprinkling of declines, which kept the tone irregular for most of the day. Commission-house business was on a small scale and there was a clearly discernible disposition among operators outside of professional circles to maintain a waiting attitude in the speculation for the present.

The unsatisfactory response of the market disappointment to induce the active selling of the last half hour, which more than wiped out the laborious gains for the previous four and one-half hours, and closed the market west are tosses.

The bond market was trregular. Total sales, par value, \$5,55,56,66, I inted States bonds were all unchanged on call.

GRAIN SPECULATORS IGNORE EVENTS IN GREAT WHITE EMPIRE

Trade Slightly Restricted, but | Principal Influence on Trade of Prices Show Little Change Throughout the Day.

REPUBLIC SPECIAL Chicago, Jan. 24.-The wheat market was slightly easier to commence with. While the Russian disturbances gave no sign of predy abatement, they did not appear to be regarded in the light of a revolution that would be likely to interfere seriously with the commerce of the country. That seemed to be the way in which the matter is looked upon in Liverpool, where wheat at the time of opening here was only from and to and higher. That about eliminated the Russian matter from immediate con-

REPORTS ON RECEIPTS. The receipts at Micneapolis and Duluth were 333 cars, compared with 343 the week before and 1% a year ago. The number of cars in the lay's arrivals was, therefore, so much larger than last year's as to be an important element in creating the cpening of weakness. It was not until the receipts at St. Louis and Kansas City were made known that a diversion in the course of the market commenced. Those

course of the market commenced. Those points got only \$2.09 bu. against \$2.000 bu. the year before, and they shipped \$1.560 bu, more than they received. Australian crop, which was formerly estimated to have a surplus of \$2.000 bu, for shipment, is now reported to promise an export surplus of \$2.000,000.

Heports from the Minneapolis market were of poor demand for wheat and flour, but indications that the recent rate of the receipts would be much reduced in the near future. Minneapolis stocks so far this week show an increase of 40.000 bu. May closed at \$1.155, 11.155, after selling as high as \$1.155. The lowest was \$1.1456 1.145 July sold from \$55c down to \$55c, closing at \$555c.

CORN SLUGGISH. CORN SLUGGISH.

Corn was heavy, and the business without animation in the first half of the ression. Receipts were 530 cars, of which 13 were contract 201 No. 3; shipments were 28,000 bu. Weakness of the Liverpool market was more pronounced, quotations for futures being reduced from \$\frac{1}{2}d\$ to the Liverpool decline was the fact that the country acceptances of Chicago bids were extremely small. The highest for May was 44% 65c, the lowest 44% c and the close 44% 144% c. July closed at the top-45%; the lowest was

SMALL TRADE IN OATS. An easy feeling developed in the oats market at the opening and continued throughout the session. Receipts are becoming larger and holders becoming discoming larger and holders becoming dis-couraged. A general demand existed for May at 20% con resting orders, but offer-ings were light and only a small trade was done. Fyfe-Manson, who were conspic-uous buyers, turned sellers later in the day. Finley-Barrel sold at the decline. May sold from 20% c down to 20% c, closing at 20% c, July did likewise, opening at 20% c, and sold down to 20% c, closing at 20% c. PROVISIONS STRONG. PROVISIONS STRONG.

Provisions ruled fairly active and strong o-day. Buying by Chapin Edwards, credited to J. McRay & Co. of Cleveland, started prices to advance. Selling by packers, principally Armour, held prices in check temporarily, but at this point outsiders and gradi traders bought liberally and boosted prices to a higher level. There was also some scattered buying by commission bouses.

MARKETS BY TELEGRAPH.

rumors pointing to the widespread results to be expected from the settlement growing on tof the Northern Securities case. The supposed imminence of the announcement of the Southern Pacific's refunding plan was a contributory cause to the firmness of the Harriman stocks. There was a disposition to attribute the movement in Erie, which was quite conspicuous, to a supposed connection with the wide-reaching settlement of the Northern Buchlet conspicuous, to a supposed connection with the wide-reaching settlement of the Northern Buchlet conspicuous, to a supposed connection with the wide-reaching settlement of the Northern Buchlet conspicuous, to a supposed connection with the wide-reaching settlement of the Northern Buchlet Conspicuous, to a supposed connection with the side of surface of the Northern Buchlet Conspicuous, to a supposed connection with the movement of the carmings for bringing all sorts of movements in the market. But the firmness of the surface of processes, which is a potent mystery for stimulating all sorts of movements in the market. But the firmness of the surface of processes, which is a potent mystery for stimulating all sorts of movements in the market. But the firmness of the surface of processes, which is a potent mystery for stimulating all sorts of movements in the international more substantial exceptions and the constitution of dividends on Hide and Leather preferred was a favorable influence on the industrial list.

But the demand for stocks easily range of the last processes, and there was a sprinking of declines, which kept the formstall list generally. A sharp rise in the international mercantile marine stocks on the curb was also an influence on the industrial list.

But the demand for stocks easily range out at the higher levels in the case of all the day's advances, and there was a sprinking of declines, which kept the formstall list. the Day Is Reports of Receipts at Primary Market.

BY ASSOCIATED PRESS.

Chicago, Jan. 24 .- Fear of developments in the Russian situation restricted trade in wheat to-day. The result was a decline of 1401c. Corn and oats are down 1401c. Provisions are up "ee to 12 c. In view of casier cables, the Russian disturbances did not appear to be regarded abroad as likely to disturb commerce. In consequence, Russian affairs scenningly had little direct influctee. Their effect, however, was felt as a decided drag on speculation. WHEAT.

The market opened easy under pressur of heavy receipts in the Northwest. May started the off at \$1.16% and there was a further decilne to \$1.14%@L18% Uncertainty as to possibilities in Russia was said to be keeping the larger speculative interests out of the market. Business was restricted mainly to balancing of trades between small operators.

Not until receipts at St. Louis and Kansas City were made known did a marked diversion in the course of the market occur. Shorts, who regarded receipts of \$2,000 bu. at those points, against 252,000 bu. a year ago, as cause for nlarm brought about the only period of strength the market exhibited.

On bidding by shorts May advanced to

On bidding by shorts May advanced to Sille \$41.152. The improvement was not long sustained, in the absence of any demand except from the shorts, whose wants were soon satisfied.

May reacted to \$1.145.91.143, closing easy at \$1.145.91.145.

Bradstreet's visible supply indicated a decrease of 2.500,000 bn. Clearances of wheat and flour were equal to \$3,000 bn., against 199,000 for two days last year. Primary receipts were 425.000 bn., against \$21,000 bn. a year ago. Minenapolis, Dulpth and Chicago reported receipts of \$25 cars, against \$24 last week and \$25 a year ago. year ago.

CORN. Corn, during most of the session, was dull, with prices fairly steady at about the opening range-46 to 46 e-which was lee to be under the previous close. Firmness in wheat temporarily encouraged the holders of corn and there was a shade of improvement. May sold at 45% for and closel at 45%. Local receipts wer 40 cars.

Oats ruled extremely dull, but held steady on a slight decline. A general demand for May existed at 30%c, but offerings were light and trade was restricted. The open-ing was a shade down for May at 20%,c. and but '4c fluctuation, the market closing steady at 20%. Local receipts were 171 cars. BANGE OF FUTURES.

SUMMARY OF ST. LOUIS MARKETS

There was no continuation of the strength which advanced prices at the previo session. In the absence of renewed disturbance in St. Petersburg all foreign markets were rather easy and domestic speculators were inclined to ease their lines until they should hear something of importance in the way of buillsh news. The cold weather in the winter belt had a tendency to strengthen the July option for awhile, but there was not enough outside interest to keep values on the upturn. Receipts here and at Northwestern points were much larger than on the corresponding day last year, and statistical news was generally favorable to the selling side. While there was no heavy liquidation, the offerings were rather free throughout the session and there was no support to act as an offset. Predicted buying by the big professionals of New York and Chicago failed to materialize and the market again acted as if the mani lators were inclined to take small profits rather than get in on the buying side for a

Though there was not much activity in corn, the market for the coarse grain also was easy, in line with wheat. Closing prices were slightly lower, May wheat opened tie off and closed toward off.

May corn opened 1-160 off and closed 16014c off, May outs closed 50 off.

Receipts of produce were in fair volume and prices of fruits and vegetables were generally steady to easy. Interest in securities was mainly in tractions, which had good support.

Testerday's bank clearings were \$3,46,133, balances \$1,176,573. Discount rates were

steady between 4% and 6 per cent. - H : A . . Spot cotton was 160 lower in the local market.
